

Benefits of String Cheese

Our high-quality string cheese has an exceptional stretch and robust texture that provides superior performance. Our patented technology delivers a consistent product that has fewer tails, twists and breaks than re-formed string cheese resulting in reduced wastage.

Applications of String Cheese

The smooth and creamy taste of our string cheese is ideal for stuffed crust, breaded mozzarella sticks and other appetizers. Our patented technology also allows us to customise the flavour and colour to meet specific customer and market needs, examples include: Chilli, tabasco, onion.
